

The Company

Aurora Energy Research provides data and analysis on energy markets, such as European power and global commodity markets. Our core belief is that rigorous modelling, rooted in robust theory and supported by detailed data, yields powerful insight over the medium- to long-run. Unquestionably independent, our analysis is designed to inform our clients' critical decisions.

Aurora was founded in 2013 by five University of Oxford economists, who have decades of experience at the highest levels of academia and energy policy. It is now a thriving, rapidly-growing company of more than 70 staff, 15 of whom are based in our European office in Berlin. Demand for our services is immense, in the UK, Germany the Netherlands and abroad, and we expect to grow to over 100 staff in the next few years. Our clients include many of Europe's major energy market participants.

Analyst/Senior Analyst for the Dutch Power Market (Berlin, Germany)

Joining our office in Berlin, you will contribute to the firm by developing analysis and conveying insights to enhance clients' decision making. You will play an active role in all aspects of client engagement: helping identify issues, forming hypotheses, conducting analysis, and synthesizing conclusions into recommendations.

The Berlin office is the gateway for Aurora to further European markets, offering exciting opportunities to work on international projects. You will join our team delivering commissioned projects (i.e. investments in renewables or batteries, cooperate strategies) and publications of in-house research in the Dutch and Belgium power markets, while working closely with market participants, such as utilities, bank, investors, developers and Government.

The successful applicants will combine technical strength with a strong track record of leadership and performance in team-oriented environments.

Successful candidates will work in a dynamic, intellectually stimulating, and demanding yet supportive environment. They will enjoy autonomy, the opportunity to substantially influence major decisions in the energy sector, and to grow into industry experts under the guidance of directors with deep experience addressing major strategic issues at the world's leading advisory firms. The position suits a recent graduate of a bachelor's or master's programme. Exact entry position will be dependent on experience and educational level.

Key responsibilities

- Develop timely and rigorous quantitative analyses to enhance clients' decision making
- Work closely with our modelling team, structuring economic problems into quantifiable analyses and deriving insights from the model results
- Contribute to Aurora's product development, by identifying new opportunities and expanding our capabilities
- Engage with clients to thoroughly understand their requirements
- Communicate findings to clients

We offer

- a dynamic, intellectually stimulating, and supportive environment
- autonomy and the opportunity to substantially influence major decisions in the energy sector
- the opportunity to grow into an industry expert
- a fun, informal and international work culture
- a cool office in Berlin Kreuzberg with coffee, fruit and snacks delivered to the office as well as Friday evening pizza and beer with the team

Requirements

- Very good grades in a quantitative subject (mathematics, economics, physics, engineering, finance)
- An ability to collect, analyse and interpret complex quantitative data and information
- Evidence of strong performance in team-oriented environments
- An ability to communicate and collaborate with both technical and non-technical parties
- Demonstrated success in project management preferred
- Strong interest in energy markets, previous professional or academic exposure to energy beneficial
- Very good knowledge of Dutch and English; fluency in another European language (e.g. German, French, Italian, Spanish, Czech) is a plus.

Start dates are flexible, please indicate your availability. We will review applications as they are received. Salary will be competitive. Applicants should send their CV (including university grades and, if applicable, reference letters) and a brief cover letter to bewerbung@auroraer.com.
